

oxwell™

Better Solutions for a Better World

MULTIPURPOSE DISINFECTING SOLUTION AUTHORIZED BY HEALTH CANADA AGAINST COVID-19

OXWELL™ MULTIPURPOSE DISINFECTANT

Developed from a patented process which kills bacteria and viruses on hard, non-porous surfaces, OXWELL™ is a ready-to-use, broad spectrum and hospital surface disinfectant for use in commercial, industrial, hospital & domestic environments.

SIMPLE, EFFICIENT AND SAFE

- 99.99% effective against the human coronavirus in 60 seconds
- Can be freely applied near people, without vacating the area
 - Will not tarnish or degrade surfaces
 - No residue left on surfaces
- Made from natural resources: water, salt and electricity
 - No dyes, fragrances or additives
 - Immediate reaccess to disinfected area

INSTRUCTIONS

oxwell™

MULTIPURPOSE DISINFECTING SOLUTION

RESPECT FOR THE ENVIRONMENT

OXWELL™ is produced from a patented, clean electrotechnology that transforms salt, water and electricity into a powerful, natural disinfectant.

LOW COST

Substantially reduce time, supplies and environmental costs with a safe, natural, ready to use (RTU) disinfectant.

E2MOX™ STATION - NEW PARADIGM

Onsite OXWELL™ production station for tens to thousands of litres per day, on demand.

Health Canada DIN 02514176

Active Ingredient: 0.0367% w/w hypochlorous acid

Ready-to-Use
